

HomeFresh®  
Entrée

# SIMPLY HEAT 'N EAT

Placon's HomeFresh® Entrée line brings premium design, a new modern look, and unsurpassed functionality to hot meal containers. There has never been a container that adds so much value to your hot meal offerings; they have everything you need and everything your customers want.

## No Re-Plating

Made from microwave-friendly polypropylene, HomeFresh Entrée containers go from the store to the microwave to the kitchen table without re-plating. Just heat 'n eat, saving customers extra time and an extra dish to wash.

## Prevents Leaks and Spills

Keeping food warm and secure is the first job of hot meal containers. Ours feature a deep snap groove for secure tab closure. The tabs are easy to both open and close.

## Reusable and Recyclable

When the meal is over, HomeFresh Entrée containers can be washed and reused. Or recycled. Either way, you've scored points with your customers.

## Single Entrées or All-in-One Meals

HomeFresh Entrée black bases are available in 8- to 40-ounces. Choose from 1-, 2- and 3-compartment bases for more versatility and merchandising options. Great for single entrées or all-in-one meals.

## Stacks Great, Nests Great

HomeFresh Entrée containers are designed for modular stacking, reducing storage space and making it easy to store lids and bases. Containers are perfectly sized to fit small and large carryout bags and the modular stacking feature makes carrying large numbers of containers less challenging.

## Cold Dishes Too

With the option of PET lids, HomeFresh Entrée containers are perfect for cold-case food applications. These non-microwavable lids are made of high-clarity, recycled material so all the beauty of your freshly prepared food shows through.

## Brand Them Your Own

HomeFresh Entrée PET lids can be embossed with your logo for a unique and customized look. The large lids offer a wraparound label option that has no effect on stacking.

## Better Packaging Means A Better Experience

Placon is one of the nation's leading designers and manufacturers of thermoform packaging. Dedicated to solving problems through proactive innovation, our packaging inspires better engagement between people and products. Our large selection of high-quality stock and custom food packaging offers food retailers and their consumers quality, protection and sustainability.

## Try HomeFresh Entrée

See why HomeFresh Entrée is the hottest innovation in hot meal packaging.

CH1-12

CH1-16

3 lid styles; vented, non-vented and PET

Designed for modular stacking

Deep snap grooves prevent leaking

PET lids made with **ecostar** an FDA-approved, food-grade recycled PET from curbside-collected bottles and thermoforms

Reusable & recyclable

Sized to fit conveniently in takeout bags

Microwave-friendly polypropylene—no re-plating

Easy open tabs

CH2-24

CH2-32

CH3-1-40

CH3-3A

Choose from 2- or 3-compartment options to hold a variety of foods and keep them looking and tasting their best

CH1-8

*HomeFresh Entrée bases with optional PET lids provide a sustainable option for cold-case foods while saving on inventory. No need to purchase different bases for hot and cold foods.*
