BETTER PACKAGING MEAN

NS A BETTER EXPERIENCE

We are one of the nation's leading designers and manufacturers of thermoform packaging. Dedicated to solving problems through proactive innovation, our packaging inspires better engagement between people and products. Our large selection of high-quality stock and custom retail packaging offers retailers and their consumers quality, protection and sustainability.

LEADING THE WAY IN SUSTAINABILITY

STAINABLE PACKAGING

CALCULATING YOUR SUSTAINABILITY

We want you to know how many recycled PET bottles went into making your packaging. On each specifications page there is a column with the bottle image (shown right). In this column, you will see how many bottles per unit and per case were used and saved from the landfill to make that item.

Opened in 2011,
we've repurposed
over 4 billion
PET bottles

MADE WITH **ecostar**®

RECYCLE • REPLASTIC • RESULTS

A CLOSED LOOP PROCESS

We are at the cutting edge of environmentally conscious packaging materials with our EcoStar material. EcoStar is a food grade, post-consumer recycled PET material that is made from curbside-collected bottles and thermoforms and is recyclable. Commitment to recycling PET by reclaiming plastic bottles and plastic thermoforms and turning them back into consumer packaging is how we make simply, better, packaging. Reuse, recycle and replastic is our vision to get the most out of plastic.

- ISO 9001 facility
- 70,000 square foot recycling facility
- Follows GMP and Lean Manufacturing Principles
- FDA Letter of Non-Objection (LNO) for direct food contact
- SCS Global Services certified for 75% and 100% post-consumer recycled PET material

RECYCLED OVER 4 BILLION BOTTLES SINCE INCEPTION

FLAKE TO SAVE 75,000
BARRELS OF OIL PER YEAR

PACKAGING SOLUTIONS

At Placon, we deliver packaging breakthroughs that inspire better engagement between people and products increasing consumer demand and shelf appeal.

CUSTOMIZATION

We can design a customized retail package just for you. Choose one of our standard stock perimeter sizes and we will work with you to customize the cavity to fit your product perfectly.

THERMOFORMING EXPERTS

With over 50 years of thermoforming design and manufacturing experience, you can trust that our award-winning design and engineering teams will deliver the best packaging solution for your product to give your customer a better packaging experience and meet your sustainability goals.

ADVANTAGES OF THERMOFORMING

Thermoforming is the process that involves heating a flat sheet of plastic until it is soft enough to mold. Once it reaches the correct temperature, the sheet advances to the form section. After the sheet is formed, it is then pulled into the mold with a vacuum. The plastic hardens and forms the desired part, which is then trimmed and inspected for quality. Since 1966, we have been a thermoforming leader in North America. Working with key food, medical and retail customers to create packaging that enhances your product on shelf and with the end user to give them a better overall experience.

Thermoforming has many advantages over other plastic processing procedures, including:

- Low-cost tooling
- Quick and inexpensive prototyping
- Shorter production lead times
- Custom designs that are easy to modify
- Ability to produce both large and small parts
- Ability to produce parts with superior stress crack resistance, high impact strength, and rigidity

PLACON CORE CAPABILITIES

- **Prototyping:** Rapid prototyping for quicker speed to market
- **Design:** High-quality packaging design with internal tool design & build
- **Thermoforming Solutions:** In-house extrusion and packaging production enhances labeling
- **Materials:** Sustainable packaging contains up to 100% post-consumer recycled content
- **Quality:** ISO 9001 and GMP (Good Manufacturing Practices) compliant with rigorous quality control procedures

STAGES OF THERMOFORMING

BLISTERBOX[®]

Our BlisterBox product line brings you the versatility and customization features that customers want in retail packaging. We provide you the options you need to enhance and showcase your product in a retail setting with singular or compartment features to help separate your products or provide multiple products within a single package to your end users. BlisterBox features hang-hole options that allow you to merchandise your products on retail peg hooks. We also offer BlisterBox options that support heavy-duty products that can be merchandised flat or laying down, due to the product weight. Most of our BlisterBox products are made using our EcoStar[®] post-consumer recycled PET.

HISTORY OF THE BLISTERBOX®

It Started With Placon

In 1966, our founder Tom Mohs built a small thermoforming machine in his basement and began making plastic jewelry boxes. While this product line was not enough to support a business, it launched Tom's dream of owning and operating a plastics packaging company.

In 1980, Tom was asked to design a small retail package for a large U.S. retailer that wanted to merchandise a wide assortment of fasteners on peg hooks. Using many of the same elements from the original jewelry box design, Tom was able to create a retail clamshell with a hang-hole for peg hooks. This was the first retail clamshell ever invented and would soon become known as Placon's BlisterBox. Later, the design was patented and "BlisterBox" became a registered name. Since then, this high visibility package has been the industry standard worldwide.

Our first thermoforming machine, pictured above, was used to make jewelry boxes.

CREATORS OF
BLISTERBOX

INDUSTRY LEADERS

MADE IN USA

BLISTERBOX

- Made using EcoStar® post-consumer recycled PET
- Use a pressure-sensitive wraparound label or graphic card to maximize shelf appeal
- Minimum perimeter flange maximizes your merchandising space and enhances labeling
- Hang-hole option provides merchandising versatility and visibility
- ¼" Graphic card radius

Key Feature: Minimum perimeter flange maximizes your merchandising space and enhances labeling.

Recommended Uses: Automotive & Electronic accessories, Fishing Supplies, Hardware & Fasteners, Hobbies & Crafts, Office Supplies.

BLISTERBOX COMPARTMENT BOX

- Available in 2, 5, 6 & 8-compartment options
- Compartments create ways to merchandise multiple product options within the same package
- Hang-hole option provides merchandising versatility and visibility
- Use a pressure-sensitive wraparound label or graphic card to maximize shelf appeal
- Snap closure feature allows you to store your products and use again or at a later time

Key Feature: Compartments create an opportunity to merchandise multiple items separately in the same package.

Recommended Uses: Electrical Supplies, Fishing Supplies, Hardware and Fasteners, Hobbies & Crafts.

BLISTERBOX HEAVY-DUTY

- Heavy Duty EcoStar PET to support heavy duty products
- Upright merchandising or can stack on retail displays
- Snap-fit holds items secure or use wraparound label for added security
- Use it on the job site or for those at home DIY projects
- Snap closure feature allows you to store your products and use again or at a later time
- Made to order with minimum order requirements

Key Feature: Thicker material than the standard BlisterBoxes for heavier or sharp items.

Recommended Uses: Hardware/Fasteners, Heavy-Duty products that are too heavy to hang on retail peg hooks.

GRAPHICBOX[®]

Our GraphicBox product line is available in standard and round packaging options. For products that need to be front and center, there is no better packaging option than our GraphicBox to enhance your product. Each GraphicBox contains a specific space dedicated to a graphic insert card where you can add additional product information. The graphic card does fit securely up against the product cavity to prevent the card from moving or becoming dislodged during shipping. When you need a custom looking package that is in stock and ready to ship, look no further than our GraphicBox Round. Our round packages have a dedicated space for your product insert card and comes with a hang-hole or can be merchandised standing upright to provide you on-shelf versatility. GraphicBox is made using EcoStar[®] post-consumer recycled PET and can be recycled, just look for the #1 PETE symbol on each package.

GRAPHICBOX AND GRAPHICBOX ROUND

- Made using EcoStar® post-consumer recycled PET
- Graphic insert card that allows for enhanced branding and additional product information
- Hang-hole for retail peg hooks makes for easy product merchandising
- Graphic insert can be visible on front and back of package
- Easy open and close snap feature allows you to store your products if you want to use at a later time
- Main cavity is round to fit and hold unique product configurations
- Graphic card corner radius: 3/16"

GraphicBox Key Feature: Cavity is sized smaller than the package for visible billboard graphics.

GraphicBox Recommended Uses: Sporting goods, fishing supplies, hardware and fasteners, hobbies and crafts, office supplies, impulse products and airport store product.

GraphicBox Round Key Feature: Round cavities have a foot to stand on the shelf or hang on a peg hook.

GraphicBox Round Recommended Uses: Recommend for tape, wire spools, labels, ribbon, string or cable spools.

THISBOX[®]

ThisBox offers you a way to enhance your product by adding a printed insert or folded insert that can be placed within the cavity of the box. Our unique lid snap, securely holds the graphic card in place and provides you a solution to create more branding or product information. Larger ThisBox packages including TX 8900, 8901 and 8931 come with a hang-hole while smaller sizes are best merchandised by being stacked on a shelf. ThisBox is a great way to showcase dental kits, medical test kits, stationary supplies or hobby and craft kits. Upon opening, ThisBox is equipped with an easy open and close feature, so you can keep your items inside secure. ThisBox is made using our EcoStar[®] post-consumer recycled PET and can be recycled, just look for the #1 PETE symbol on each package.

CURVEDBOX®

CurvedBox gives you space to insert a graphic card to provide additional product information and enhance your brand. Our CurvedBox provides a custom look to a stock package while maximizing merchandising space with the hang-hole through the graphic card. CurvedBox packaging options are designed for cell phone accessories, hardware fasteners, craft materials and sporting goods, but we do not want to limit you on the many ways you can use CurvedBox. Each package comes with a hang-hole designed to fit securely onto a standard retail peg hook. Each package incorporates a curved front that allows products to nest better and allows you to fit more packages per peg hook. Several CurvedBox packages can also be merchandised standing vertically, so you are not limited where you can sell your products. CurvedBox is made using EcoStar® post-consumer recycled PET and can be recycled, just look for the #1 PET symbol on each package.

FIND YOUR PERFECT PACKAGE

WE HAVE WHAT YOU NEED

Our experienced team of retail packaging experts are here to help you find what you are looking for. We have the tools and resources developed that can help you find the perfect retail packaging for your product. If one of our stock retail packages doesn't meet all of your needs, we will work with you to use one of our stock packages and customize it to fit your product and meet your specifications. Visit us at **Placon.com** to learn more or call us at **800.541.1535** and ask to speak to our Stock Retail Sales Team.

.....

YOUR PERFECT FIT

To find what packaging works best for your product, follow these 4 simple steps.

- 1 Visit Placon.com and watch the How to Choose the Perfect Package video under resources media videos.
- 2 Use the ruler to the right to find those measurements that best fit your product.
- 3 Once you have found the perfect package, request a sample to test.
- 4 When you feel comfortable with how your product and packaging work together, place an order for your packaging and watch your product fly off the shelves.

If you have questions or concerns about measuring your product, our team would be happy to help.

LIVING SUSTAINABLY IS OUR REALITY

Living sustainable is not just something we say, it is our company vision. We strive to be an industry leader in sustainability and reducing our overall carbon footprint by implementing a variety of energy saving programs, water recycling, and working with local governments and municipalities. Our sustainability goals don't stop with just our post-consumer recycled material. We also own and produce 2.5 MW of solar power a year which offsets about 10% of all our energy usage, the equivalent of powering 400 homes a year.
