MEDICAL PACKAGING
SIMPLY BETTER PACKAGING

We are a leading medical device packaging company in North America with experience manufacturing single and multiple use packaging systems for class I, II, and III medical devices. We help pharmaceutical and medical device OEMs navigate through complex packaging design and validation processes getting new products to market quickly and cost-effectively. We make packaging your medical device easy.

Partner with us and get a turnkey solution for a wide range of sterile and non-sterile medical and pharmaceutical packaging systems.
MISSION
To fuel the heart and mind of the engineer to create packaging that simply works better.

VISION
Be the first choice packaging partner for innovative design, collaboration, and sustainability.

100% Medical Packaging Focus

- Custom thermoformed trays, blisters, and clamshells
- Universal Placon VPAK stock packaging for small implants and components
- Die-cut mounting cards and BargerGard protective packaging
- Lidding—printed and non-printed, foil, paper, or Tyvek®
- Folding cartons—printed/non-printed microflute/paperboard
- Vendor Managed Inventory (VMI) and Kanban programs
Innovative Designs, Smart Packaging

- Innovative sterile and non-sterile systems
- Long catheter capabilities—packaging up to 59"
- Expertise in thin-gauge thermoforming of PETG, HIPS, PP, recycled PET, APET, and HDPE materials
- Multiple thermoform platforms offer flexibility to support small, medium, and large volume orders from 500 to over 500,000 pieces
- Turnkey medical device and pharmaceutical packaging systems that fit delicate instruments’ and implants’ form, fit, and function
- Rapid prototyping, 3D solid modeling, and production-quality prototype samples with complete in-house tooling capabilities
BargerGard
A smart alternative to foam and vinyl protective packaging.

- Polyurethane (TPU) packaging protects rough and sharp components including catheters, needles, screws, drills, and porous coated implants
- Nonabrasive material protects finished, polished, and other surfaces from damage including marring of devices, denting, and scratching
- Formed, die cut, and welded into various configurations such as liners, containers, pouches, and mounting cards
- Compatible with ethylene oxide (EtO), gamma, and eBeam sterilization
- Available in stock gauges from .005" to .055"
Precision Packaging for Complex Procedures

- Renal tubing sets
- Diabetes test kits, diagnostic kits
- Cardiac stents, implants, pacemakers
- Procedural and surgical kit trays—intuitively designed to follow particular sequences helping to minimize errors
Pre-Validated Stock Packaging
Packaging solution for products in the spinal and extremities markets with Placon’s process validations already complete.

- Turnkey packaging solution to get your product to market faster
- Premium quality design and construction
- Save money with no design or tooling costs
- Requires fewer internal resources and lower capital investment
- More efficient purchasing, warehousing, sterilization, and distribution
- Compatible with Gamma, EtO, and eBeam sterilization methods
Inner and outer die-cut lids
- Choose Tyvek® 1073B HCW2773, foil or paper
- In-line flexographic printing options

BargerGard protective liner
- Innovative alternative to foam and vinyl packaging
- Die-cut, welded Polyurethane (TPU) material protects sterile barriers
- Resistant to punctures and abrasion offering a high level of product protection
- Choose from two different configurations for single or multiple small parts and components

Inner and outer rigid thermoformed trays
- Eastar™ Copolyester 6763 PETG

Primary Carton
- Customizable with your brand (shown on left side)
WORLD-CLASS PACKAGING PARTNER

Placon VPAK is already in the field meeting the needs of medical device OEMs, hospitals, and clinicians.

- Single or double-sterile barrier system is easy and intuitive to use
- Rigid design ensures strong product protection
- Easy to use for smooth aseptic transfer
A World-Class Packaging Partner
At Placon, we provide every packaging partnership with innovative designs and a world-class experience. We will design and produce custom protective medical packaging systems that meet your critical sterility, automated assembly, production requirements, and specifications.

Locations with clean rooms:
• Elkhart, IN
• Madison, WI
• Plymouth, MN

Team up with us and you’ll benefit from:
• In-house tooling
• Exceptional customer service
• Award winning design company
• Rapid prototyping, production-quality samples
• Validation process expertise with strict quality control standards

Quality Standards & Certifications
• ISO 13485:2016 Certified
• ISO 9001 Certified
• cGMP Compliant Facilities
• Lean Manufacturing Principles
• SPC (Statistical Process Control) Procedures
• It is the responsibility of our customers to determine the fitness for use of our packaging for their products, process and the end consumer

CORPORATE HEADQUARTERS
6096 MCKEE ROAD • MADISON, WISCONSIN 53719
