LEADING THE WAY IN SUSTAINABLE PACKAGING

GUIDING STATEMENT

Placon is committed to reclaiming and repurposing post-consumer recycled materials, and setting the industry standard for sustainable packaging. By helping to create a circular economy, Placon strives to create a culture of environmental responsibility for our employees, customers, and communities.

Opened in 2011,
we've repurposed
over 4 billion
PET bottles

MADE WITH **ecostar**®

RECYCLE • REPLASTIC • RESULTS

A CLOSED LOOP PROCESS

Placon is on the cutting edge of environmentally-conscious packaging with our EcoStar material. EcoStar is a recyclable, food grade, post-consumer recycled PET material that is made from curbside-collected bottles and thermoforms. Our commitment to recycling PET by reclaiming plastic bottles and thermoforms and turning them back into consumer packaging is how we make simple, better, more sustainable packaging. Reuse, recycle and replastic is our vision.

- ISO 9001 facility
- 70,000 square foot recycling facility
- Follows GMP and Lean Manufacturing Principles
- FDA Letter of Non-Objection (LNO) for direct food contact
- SCS Global Services certified for 75% and 100% post-consumer recycled PET material for some custom food packaging
- All stock food packaging is made with EcoStar 50S, which meets PCR content requirements for all 50 U.S. states

RECYCLED OVER 4 BILLION
BOTTLES SINCE INCEPTION

PROCESSES
ROUGHLY 120,000 LBS
OF BOTTLES A DAY

PROCESS ENOUGH
FLAKE TO SAVE 75,000
BARRELS OF OIL PER YEAR

CRYSTAL SEAL®

Our Crystal Seal line of thermoformed plastic food containers are crack and leak-resistant, made with EcoStar post-consumer recycled PET, and uphold our high quality standards.

KEY ATTRIBUTES

MADE WITH ECOSTAR

LOCK IN FRESHNESS

LEAK RESISTANT

CRACK RESISTANT

CRYSTAL SEAL® CRAVINGS®

Introducing Cravings, a sustainable, tamper-evident family of deli containers from our Crystal Seal line of high quality, crystal clear food containers. Cravings round deli containers are made with our EcoStar post-consumer recycled PET material and are recyclable with a #1 resin code to meet your sustainability goals. Most importantly, we added our patented tamper-evident feature on the lid, so you and your customers can be assured that the contained food is safe and secure.

Cravings containers are perfect for fresh-cut fruits, vegetables, cold deli, and other freshly prepared food items. Creating sustainable packaging while focusing on your end customers' safety is how we make simply better packaging.

1 **MADE WITH ecostar**

an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

2 Unique tamper-evident hinge design visually identifies if a container has been opened

3 Universal lid fits all bases

4 Secure seal ensures freshness

5 Designed for superior stacking

6 Exceptional clarity showcases food

CRYSTAL SEAL® DELECTABLES®

Introducing Delectables tamper-evident square packaging — where sustainability meets intelligent design. The Delectables line is perfect for all your dry snack offerings, including candies, nuts, trail mix, and dried fruit. The square shape makes for easy stacking and optimizes shelf space, while the built-in tamper-evident hinge provides extra security. Delectables square containers are made with our EcoStar post-consumer recycled PET material and are recyclable with a #1 resin code to meet your sustainability goals.

With sizes from 8 oz to 32 oz, you're certain to find a container to fit and showcase almost any dry snack food item. Delectables, where sustainability, safety and quality combine to become simply better packaging.

- 1** **MADE WITH ecostar**
an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

2 Hinge design visually notifies consumers that the container has been opened

3 Offset, recessed cavity instructional tabs for easy gripping and opening
- 4** Post feature aligns the lid and base for easy closing while enhancing the container's tamper resistance

5 Secure seal ensures lasting freshness

6 Designed for superior stacking

CRYSTAL SEAL® TAMPER-EVIDENT CONTAINERS

Crystal Seal Tamper-Evident containers are the new standard in food packaging design. They provide a clear view of the product from all angles and a secure seal to lock in product freshness. Each container has a hinge design that helps to identify if the product or package has been tampered with. Crystal Seal Tamper-Evident containers are made from our EcoStar, post-consumer recycled PET and are recyclable.

- 1

MADE WITH *ecostar*
an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms
- 2

EVOLUTIONS®

Let your customers know they are getting the safest, freshest food possible with our Evolutions line of thermoformed deli food containers. Evolutions containers are made with EcoStar, our food-grade, post-consumer recycled PET. The design features a secure locking technology that enables you to see when the container has been opened or tampered with to ensure food safety.

Each container offers leak resistance and crystal clear visibility, allowing your customers to see the product from all angles, and giving you the best deli container in the market today.

FRESH 'N CLEAR®

Our Fresh 'n Clear line brings you a versatility never thought possible in food packaging. The product line offers you a variety of sizes, shapes and configurations, ranging from dip cups, bowls and trays, to on-the-go items and meal kits. The Fresh 'n Clear line was designed with overcap lids, secure stacking options, and the ability to use an insert to hold your wet or dry ingredients until meal prep.

The Fresh 'n Clear line can take your products to the next level with crystal clear visibility and a variety of item-specific features that are unique in food packaging. And the product line is environmentally friendly, too. Fresh 'n Clear containers are made with EcoStar, our food-grade, post-consumer recycled PET.

FRESH 'N CLEAR® DIP CUPS

Placon's new line of stock hummus and dip cups is designed to keep your fresh foods secure while showcasing their quality with superior clarity. Available in 10 oz, 16 oz, 24 oz, and 30 oz sizes, these versatile containers are perfect for a variety of party favorites, including sweet and savory dips, hummus, and other spreads.

Each cup is made with our EcoStar® post-consumer recycled PET material and is recyclable with a #1 resin code, ensuring your packaging meets sustainability goals without compromising on quality. The film-sealable design keeps products fresh and secure, while the option of clear or custom-colored lids offers flexibility for your branding needs.

FRESH 'N CLEAR® GoCubes®

The Fresh 'n Clear GoCubes line brings style, versatility, and sustainability to a classic square container. Use GoCubes bases alone or add a universal insert tray for maximum appetite appeal and extended shelf life. Select GoCube models are compatible with our SnackCubes™ product inserts to provide portion control options and help ingredients stay fresher longer.

- 1** MADE WITH **ecostar**
an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

2 SnackCubes fit perfectly inside to help keep extra ingredients separated until ready for mixing

3 Designed for superior stacking for easy storage
- 4** Inside fit lid is leak resistant

5 Easy open tabs

6 Multiple insert styles available to hold wet or dry ingredients until meal consumption

7 Bases without insert trays store bulk items securely and reduce the need for additional containers

The GoCubes base along with an inside fit or overcap lid, can provide leak resistance to lock in product freshness longer.

GoCubes are compatible with SnackCube inserts, providing additional compartments options for separate ingredients.

Offer your customer more with multi-compartment inserts to create a variety of pre-packaged meals.

FRESH 'N CLEAR® CATERING COLLECTION

The Fresh 'n Clear Catering Collection of platters and bowls lets your food take center stage with secure, attractive, and sustainable containers that are a crowd pleaser at any event. The Catering Collection is designed to showcase your party snacks and treats, while keeping them fresh and secure. Each base and lid are made using our food-grade EcoStar post-consumer recycled PET material. Let our Catering Collection do the work for you at your next event.

- 1 **MADE WITH ecostar**
an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms

2 Round cups hold dipping sauces, dressings and more

3 No-overhang lid prevents unexpected, accidental removal during handling and delivery

4 Venting system slowly releases trapped air, preventing lid “ballooning”
- 5 Choose from 5 or 7 compartments

6 Tight lid to base seals ensure product freshness

7 Easy grip tabs ensure lid removal and not to disturb contents

8 Perimeter tray base channel holds liquids away from food to extend freshness

FRESHGREENS®

Our FreshGreens produce trays extend food freshness and increase preparation efficiencies. The design features a seamless, concave inner-wall profile that reduces pressure points to prevent bruising on flat slices. The tray delivers superior fluid handling, allowing fluid to flow away from produce while keeping slices firm and flavorful. By combining high-strength,

low-temperature seals, our trays improve line run rates, delivering operational productivity and efficiency.

FreshGreen trays are a cost-effective way to maximize product protection, extend shelf life, and reduce waste.

KEY ATTRIBUTES

MADE WITH RECYCLABLE PET

LONG-LASTING FRESHNESS

AUTOMATION-FRIENDLY

FRESHGREENS® RECTANGULAR FOOD PREPARATION TRAYS

Introducing produce trays that extend food freshness and increase preparation efficiencies.

The design features a seamless, concave inner wall profile that reduces pressure points to prevent bruising on flat slices. The tray delivers superior fluid handling, allowing fluid to flow away from the produce while keeping slices firm and flavorful. By combining high-strength, low-temperature seals, our trays improve line run rates, delivering operational productivity and efficiency.

All-in, these trays are a cost-effective way to maximize product protection, extend shelf life, and reduce waste.

- 1 Heavy-duty construction with superior fluid handling
- 2 Strong, low-temperature seals result in efficient throughput on packaging lines
- 3 Made with recycled plastic

HOMEFRESH®

Our industry-leading HomeFresh Deli and Entrée containers offer a modern look and unsurpassed functionality to hot or cold food packaging. The Polypropylene (PP) material that our HomeFresh lines are made from has the ability to be microwaved for those hot food and leftover meals, can be reused, and is recyclable.

All lids provide a sure-fit seal and leak resistance to lock in freshness and extend product shelf life. Perfectly sized to fit your deli or hot meal options with stacking ability to store or merchandise with ease. The HomeFresh product line provides the functionality and versatility you want for all your deli and full meal packaging needs

KEY ATTRIBUTES

MICROWAVE SAFE

SECURE STACKING

LEAK RESISTANT

VERSATILITY

HOMEFRESH® ROUND DELI

Our HomeFresh Deli containers are the ideal choice for both hot and cold foods. Whether you need clear, white or custom printed deli container options, we can help design the right deli packaging solution for you.

Deli Containers

Showcase fresh foods with our clear plastic deli containers. HomeFresh Deli containers are made from microwave-friendly polypropylene material, perfect for foods that require re-heating. Lids are available in your choice of polyethylene or high clarity polypropylene. We have the ability to customize your containers with our 8-color printing on bases and up to 6-color printing on lids. Let your customized containers stand out on store shelves and highlight your product.

1 Leak resistant lid

2 Easily view contents

3 Lids available in polyethylene or high clarity polypropylene

4 Straighter sides walls accommodate a cored pineapple perfectly

5 Custom imprinting available on bases and lids

6 Bases available in white or clear

COMBO PACKS of 250 bases and 250 lids are available. Call or email for more information.

HOMEFRESH® ENTRÉE

The HomeFresh Entrée line brings premium design and a new modern look to microwave-ready containers. The line's stylish containers are able to keep meals safe and secure until ready for re-heating. You no longer have to worry about containers being tossed around as HomeFresh Entrée are designed for modular stacking, making them easy to carry or take with you. Our HomeFresh Entrée line has everything you need and everything your customer wants in a microwaveable container. Available with 3 lid styles: vented, non-vented and PET.

- 1 PET LIDS MADE WITH **ecostar**
an FDA food-grade recycled PET material made from curbside-collected bottles and thermoforms
- 2 3 lid styles; vented, non-vented and PET
- 3 Deep snap grooves resist leaking
- 4 Designed for modular stacking

- 5 Wide variety of sizes and shapes
- 6 Easy open tabs
- 7 Sized to fit conveniently in takeout bags
- 8 Polypropylene bases and lids are microwave-friendly

INJECTION MOLDED

Our Injection Molded containers and lids are another great option in our diverse line-up of stock food packaging products. With tight seals that lock in freshness, safe stacking, easy de-nesting and the option to brand them your own, you get a flexible and attractive option for your food packaging needs.

They're also dishwasher-safe, BPA free, and are available in a wide variety of sizes. The line also has tamper-resistant lid options, and containers available in white, clear or natural materials.

KEY ATTRIBUTES

FREEZABLE

CUSTOM PRINTING

MICROWAVE SAFE

LOCK IN FRESHNESS

INJECTION MOLDED

Injection Molded containers bring you a variety of features ranging from freezable and customizable to tamper-resistant and microwave safe. If you are looking for a container to put soup into, we can help. If you need a deli cup for cold salads, we have that, too. Each container is designed to ensure safe stacking, easy de-nesting and a base to lid seal that is guaranteed to lock in freshness. Our Injection Molded containers offer a combination of flexibility, durability and quality.

Custom Printing & Labeling

Elevate your brand visibility by customizing your packaging with our 10-color vivid printing technology, or choose a pressure sensitive label application. Color material options are available and made to order with minimum order requirements.

- 1 Tight lid to base seals prevent leaks and ensure product freshness
- 2 Dishwasher and microwave safe
- 3 BPA free and meets food grade and GMP standards
- 4 Large flat uninterrupted labeling space for strong branding opportunities
- 5 Designed for superior stacking and optimum nesting for storage
- 6 Tamper-resistant container's break tab indicates when a container has been opened
- 7 SPP or freezable products, can be used in freezer applications

FAMILY LINE

COLORS

VALUE LINE

Our most popular Injection Molded line, the Value line, is built for automation efficiencies, making it production ready. “P” models have a stacking shoulder and are more robust to give you a high-performing container that is perfect for hot or cold foods. Available in 7 oz. to 32 oz. sizes that come in clear or white with custom colors and freezable options. This line features one universal lid for purchasing ease.

CLASSIC LINE

The Classic line is available in sizes ranging from 8 oz. round deli bases to 168 oz. tubs, with or without plastic handles, and feature exceptionally tight seals, easy de-nesting and brilliant custom decoration or printing options. Some products are made to be used within freezer applications, which are designated by “Freezable” on the item listings page. Available in PP and HDPE with recessed or flush lid.

TAMPER RESISTANT

Tamper-resistant containers are available in 8 oz. to 32 oz. sizes with a resealable, one-size-fits-all tamper-resistant lid. Comes in clear or white PP or freezable grade food-safe resin with custom colors and option for decorating and printing. Let our tamper-resistant containers do the work to keep food safe.

CLEAR

Clear material lets you showcase your product on shelves. The clearness gives your customer the ability to see the product inside the container to ensure freshness and quality.

WHITE

White material gives you the ability to create product and brand consistency. You no longer have to worry about the product colors being visible as the white material blocks product color to give you a precise billboard for your brand.

NATURAL

Natural material is slightly less visible than Clear. It provides a clean canvas to display your brand messaging while still allowing your product to be visible.

5 CASE PACK QUANTITY

INDUSTRY NOTES: Items are 410, except Value Line 64 - 168 oz containers as those vary by item. Freezable items can be used in freezer or extreme cold applications

PARTNER ITEM(S): Items are compatible with each other.

IMPORTANT ORDERING INFORMATION: The minimum order quantity for printed injection molded cups, tubs, and lids are listed by each product and orders must be placed in pallet increments. There are no exceptions. Many cup sizes are available in alternate materials or opacities that can be produced on a made-to-order basis. Please contact your Placon Sales Representative for more details.

We want to hear from you. If you have a product question, interested in obtaining a quote or want to speak with one of our packaging professionals, please contact our customer service team directly:

Customer Service Toll-Free: **800.541.1535**

Monday – Friday: 8:00 AM – 5:00 PM CST (Central Standard Time)

Packaging for A Greener Future

Embrace the essence of sustainability with our stock packaging. Through innovative energy-saving initiatives, water recycling programs, and collaborative efforts with local governments, we are shaping a greener future. Beyond our commitment to post-consumer recycled materials, we proudly generate 2.5 MW of solar power annually, offsetting 10% of our total energy consumption—equivalent to powering 400 homes each year. Choose packaging that reflects not only the quality of your product but also a shared commitment to a sustainable world.
